Allowable Subject Matter

2. Claims 1-9, 12-14, 16-21, 25-28, 30-35, and 37-43 are allowed and now renumbered as 1-37.

Reasons for Allowance

3. The following is an examiner's statement for reasons for allowance:

Prior art fails to teach a combination of elements including applying second filtering criteria on the first filtering criteria to generate any secondary documents, the second filtering criteria comprising inter-module secondary filtering information in at least two modules, the at least two modules including the module utilized to generate any primary documents; and

Continuously adapting the first and second filtering criteria to generate a unique end table to fit an adapting user profile, so the unique end table populated by any generated primary or secondary documents as recited in independent claims 1 and 30.

Specifically, the prior art generally mentions one filtering criteria, but does not mention the second filtering criteria which works with the first filtering criteria to obtain an end table for a requesting user.

These features, together with the other limitations of the independent claims are novel and non-obvious over the prior art of record. The dependent claims 2-29 and 31-37 being definite, enabled by the specification, and further limiting to the independent claim, are also allowable.
